

Loan Adjustment Form Academic Year 2024-25

Students are offered Federal Direct Loans as part of their overall financial aid package. Students may accept/decline all or part of these loans.

Please note declining these funds will not make you eligible for additional aid. Declining all or part of a loan that has already disbursed cannot occur until you repay the reduction to your student account.

Salem State University encourages students that must borrow to finance their education to utilize their entire Federal Direct Student Loans before borrowing private loans. Please select the changes to be made below:
